

Sentry Series 6 Compartment Extra Deep Tray

Improve security in even the toughest, most abusive environments with the Cook's Sentry Series line of trays, tumblers, mugs and spork. This innovative meal serving ware is made from an FDA approved pliable material that bends and flexes so it's not a viable material for inmates to make into a weapon. With a broad temperature safe range, trays can go from cooler to heated carts to inmate. The line is highly durable and long lasting, and the innovative material provides safety benefits that aren't available from copolymer or polycarbonate serving ware.
