ROTADOLLY

APPLICATION:

This low profile dolly is ideal for maneuvering around tight parameters. These casters are great for directional use with lateral movement. This dolly has a weight capacity of 800lbs.

MATERIAL:

The exterior frame is constructed out of 2"x4"x.125" wall tubing. The interior frame is constructed out of 2"x2"x.100" wall tubing. The optional removable handle is constructed out of 1 1/2" diameter pipe.

CASTERS:

These dollies come equipped with four 5" double Rotacaster wheels. The rotacaster is a multi-directional wheel that provides the ability to move in any direction while mounted in a fixed direction, using rollers rather than a swivel mount.

GUARANTEE:

These dollies carry a **Lifetime Guarantee** against rust and corrosion and also carry a **Five-Year Guarantee** against workmanship and material defects.
