

HEALTHIER:

- Six-stage filtration featuring Truman Cell™ proprietary technology captures and destroys allergens, bacteria, viruses, molds, fungi and other particles down to 0.1 microns.
- New Oxygenator stage converts atmospheric ozone into pure oxygen.
- Reduces Volatile Organic Compounds (VOCs), including chemical fumes from glues, solvents and synthetic materials with optional Odor Absorber Plus.
- Removes pet and cooking odors for true clean-air living.

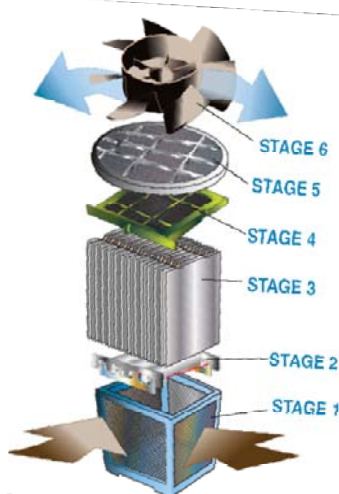

EASIER:

- Permanent filter cleans easily with soap and water.
- State-of-the-art easy touch control panel.
- Turn on and leave on for continuous cleaning.

SMARTER:

- Quieter operation with Silence Technology®.
- Permanent filter does not clog, never needs replacing.
- Check Collector Cell light illuminates once it needs cleaning.
- Added features include nightlight and fragrance cartridge.

Air Tower

Air 8.5

Stage 1: Pre-Filter catches large particles such as hair and lint as the fan draws air into the unit.

Stage 2 & 3: Truman Cell captures and destroys bacteria, molds, viruses & fungi by electrostatically charging (Stage 2) and collecting particles (Stage 3).

Stage 4: Odor Absorber Plus removes odors and reduces Volatile Organic Compounds (optional).

Stage 5: Oxygenator converts ozone to oxygen.

Stage 6: Air Revitalizer emits negative ions to help freshen air (can be turned off).

Specifications

Item Number:

Air Tower

AIRTB

Air 8.5

AIRPB Black with Burl Wood
AIRPS Silver with Granite

Air Flow:

150 CFM

140 CFM

Efficiency:

Traps particles as small as 0.1 micron

Filtration Type:

Electrostatic Precipitation featuring Truman Cell™

Cleaning Area:

1,125 sq. ft an hour

900 sq. ft an hour

Power Consumption:

90 watts

85 watts

Unit Weight:

19.7 lbs.

11.8 lbs.

Unit Size:

30.25" x 10.75" x 10.75"

16.6" x 12" x 5.7"

Cord Length:

9.5 feet

6 feet

Warranty:

1 year

1 year
