

COMMERCIAL HALO

When the light is on, germs are gone.

The only vacuum in the world that can kill many germs, viruses, bacteria and dust mite eggs with UV-C light.

Kills

Viruses

Dust Mite Eggs

Flea Eggs

Bacteria

Mold

- Tests have shown that floors can have more germs per square inch than toilet seats! These potential health threats include E. coli, MRSA, rhinovirus and dust mites that are a leading trigger of allergy and asthma symptoms in children.
- The Oreck Halo is the only vacuum with patented ultraviolet C (UV-C) light technology that can kill many of these germs, dust mite eggs, mold and flea eggs.
- Oreck Halo uses the same revolutionary UV-C light that has been used for decades to purify drinking water...and can kill many of these potential health threats without chemicals.
- The patented Oreck Halo Light Chamber concentrates the power of the light down on to your carpets and floors and kills many of the exposed germs.
- Oreck Halo has been tested and shown to kill more than 99.9% of certain common germs and more than 90% of dust mite eggs.
- Oreck Halo features a unique HEPA 13 filter bag for maximum air filtration and air quality.
- Oreck Halo features on-board attachments for easy cleaning of draperies and upholstery.
