

PANSAVER®

Contour Fit™ Ovenable (400°F) Pan Liners

Product Specifications

Product Name: PanSaver® Contour Fit™ Ovenable (400°F) Pan Liners

Product Description: A Patented Ovenable (400°F/203°C) polymeric pan liner having a pre-formed contour fit disposed within said pan to cover an interior surface of said pan during food preparation, cooking, and serving.

Design Specifications: An ovenable pan liner having a Contour Fit which is used primarily with food service pans and functions to hold food within the pan receptacle and to form a barrier between the interior surfaces of the pan and food that is disposed therein. The Contour Fit pan liner has a tubular or bag shaped body which is formed without bottom corners (dog ears), which are typical of conventional bag shaped pan liners. The pan liner is formed having a contoured bottom edge which provides an improved fit of the liner to the pan and prevents food and serving utensils from becoming trapped in the “dog ears” of the liner.

Product Certifications:

NSF Certification – Assures compliance with U.S. regulations for direct food contact at temperatures ranging from cold (-73°C/100°F); ambient; and hot (203°C/400°F). Assures compliance of only food grade heat stabilizers in the compound.

KOF-K PARVE (K#1672) – Assures compliance with Kosher supervision.

ISO 9001:2000 System Certified Manufacturing Operation. The Quality System is registered and monitored by ITS Intertek Services.

FDA Registered Manufactured

CFIA Accepted

Material Specifications:

MQ36 film – Resin meets all requirements of the Food and Drug Administration regulations 21 CFR 177.1500 (a) (1) (6), (b) (1) (6.1), (c) (3) (4) and 21 CFR 178.2010 to product articles intended for use in the processing, handling, and packaging of food products.

Melt Point Range 242°C to 258°C / 464°F to 496°F

Heat Resistance/Stability 203°C/400°F for 20 hours

Tensile Strength: 13000 psi

Seal Burst Strength: > 28 inches of water pressure

Tear Resistance (Graves): 500 grams

Maximum Use Temperature: -73°/-100°F / 203°C/400°F

Manufacturer: M&Q Packaging Corporation – Schuylkill Haven, Pennsylvania – USA
