## electronic milk refrigerator for home espresso machines

### Enjoy frothed or steamed milk any time in seconds!

Frothing had always been a tedious task. One had to go to the fridge to get the milk, search for the hose, attach it to the espresso machine and milk carton, make the froth, clean the hose and put it away again, and return the milk to the fridge. It hardly seemed worth the effort. *Then, the process had to be repeated every time you wanted frothed milk!!*

Enter MILK2froth: This revolutionary unit stays connected – 24/7 – to any espresso machine that has a frothing nozzle with a milk adapter (most machines do). *What could be easier?*

## MILK2froth™

### Convenient

With a press of a button, steaming froth is delivered into your cup.

### Compact

This electronic refrigerator fits virtually anywhere:  
Only 7" W x 11 1/2" H x 10 1/2" D.

### Simple

Worry-free and easy to use.

### Safe

Continuously chills milk at or below 41°F.  
A flexible hose connects the MILK2froth and espresso machine.

- 0505 MILK2froth, black
- 0605 MILK2froth, stainless steel
- 0730 Refillable 1.5 qt plastic container

## More convenience, less hassle!

### Ingenious Design!

#### Safe:

Milk is kept cold at or below the NSF (National Sanitation Foundation) required safe temperature of 41°F.

#### Intuitive:

Blue light confirms proper cooling temperature. White light blinks to indicate “almost empty”.

#### Practical:

Refillable, dishwasher safe plastic container is stored within cooling chamber to guarantee cold milk 24/7. Stores up to 1.5 quarts of milk. Angled container position ensures access to every last drop!

### Specifications

- Energy efficient: runs on approx. 50 watts (less than a standard light bulb).
- Whisper quiet operation.
- Superior cooling efficiency due to Advanced Thermo-Electric Cooling Technology combined with superior thermal insulation.
- Compliant with environmental directives for manufacturing and the RoHS initiatives.
- One-year warranty against manufacturing defects.
- Gift boxed.

Available Late  
December '08

Place a **DEMO UNIT** next to your in-store espresso station. Watch sales soar as you enjoy the convenience of the MILK2froth all day long!

### MILKchiller™

In addition to the MILK2froth, we developed the MILKchiller specifically for commercial coffee stations to cool and dispense coffee cream. The unit is NSF Certified and patented. Saves the operator time and money. For details, visit [www.milkchiller.com](http://www.milkchiller.com) or call us!
