

Saf-T-KnifeTM Station

Sanitary, Secure and Safe Storage for Kitchen Knives

New Saf-T-KnifeTM Station from San Jamar-Chef Revival offers a new solution to store and protect knives.

- **Sanitary**— Closed, sanitary container protects knives from contaminants
- **Safe**— Provides secure storage unlike magnet bars
- **Versatile**— Top slot accommodates up to 8 knives including a cleaver and a knife sharpener
- **Easy to clean**— NSF-Certified. Dishwasher safe— 3 pieces disassemble quickly to run through dishwasher

Keeps knives protected while making it easy to choose the proper knife for the job

Saf-T-KnifeTM Station is the **clear** choice for knife storage...

Stainless steel racks don't allow you to see the knife blades, making it difficult to choose the right knife and to ensure that knife is clean and pest free

Magnet bar racks leave knives exposed to contaminants and present an increased risk of cuts and knife-related injuries

Saf-T-KnifeTM Station (STK1008)— Available Q2, 2012
