SIC-222  
Ice Storage Cart

*These rugged bars are constructed from all stainless steel for year-round indoor/outdoor usage.*

Constructed entirely of stainless steel, these attractive and functional bars are tough enough to be used outside year-round, and beautiful enough to grace the most elegant banquet hall. Neither high humidity or inclement weather present a problem to the versatile Weather-All bar.

Use it inside, poolside, oceanside or beach. It will give years of durable, dependable service when properly maintained.

Because it's completely mobile on 5 inch diameter polyurethane tire casters, you can roll it to where the crowds (and profits) are, to save table service, labor and provide faster service to customers.

For even more efficient service, the matching Weather-All Ice Cart and Back Bar are perfect companions to FWE's functional indoor/outdoor bar.

- ◇ Indoor / outdoor usage
- ◇ Welded steel top and bottom frames
- ◇ Raised marine front edge retard spills
- ◇ Rugged polyurethane tire casters
- ◇ Stainless steel work surface and splash area with coved corners
- ◇ Stainless steel ice sink with shut-off drain valve
- ◇ Removable bottle speed rack
- ◇ Handy compartmented server
- ◇ Towel ring
- ◇ Large storage areas
- ◇ Two year limited warranty

### WEATHER-ALL BARS:

**CONSTRUCTION.** Heliarc welded, single unit construction shall consist of welded stainless steel base frame of heavy gauge 1" square stainless steel tubing with extra 10-gauge stainless steel caster corner plate reinforcements.

**BODY / TOP MATERIALS.** Shall be stainless steel, heliarc welded; ground and polished. Interior work surface shall be constructed of stainless steel, with easy to clean coved corners. Front edge of work surface shall have raised marine nosing to retard spills.

**CASTERS.** Polyurethane tire casters in a configuration of two (2) rigid, and two (2) swivel with brake. Casters shall have a reinforced yoke welded to 10-gauge caster mounting plate. The caster mounting plate shall be secured to a 10-gauge stainless steel reinforcing stress plate via welded in place stainless steel studs. The reinforcing stress plates shall be welded to the heavy gauge tubular frame of the unit. Eight (8) foot models are equipped with six (6) casters: four (4) rigid casters and two (2) swivel with brake.

**BUMPERS.** Full bumper models shall have solid 1-1/2" wide continuous wraparound aluminum channel, bolted to frame, with snap-in, non-marking replaceable vinyl cushion. Full perimeter bumper shall be continuous, for added protection, with corner cut-outs to facilitate cleaning.

**STORAGE AREA.** On six (6) foot models, the glass storage area shall include a stainless steel shelf. On all models, the bottom storage area shall be stainless steel lined.

**ICE SINK.** Sink shall be one-piece stainless steel with coved corners: 18-1/2" x 16" x 6-1/2" deep with shut-off drain valve. Sink shall be undercoated to retard condensation.

**BAR ACCESSORIES.** Standard equipment shall include 5" deep, heavy gauge stainless steel bottle speed rack (extends 3-1/2" beyond depth dimension of 31.5"); removable without tools. Towel ring shall be mounted to working side. Handy compartmented server will be included separately.

### Optional Accessories:

- Locking bottle speed rack
- Extra stainless steel shelves
- Locking doors for storage areas
- Stainless steel bar gutters
- Protective storage cover
- All swivel casters
- All swivel with brake casters
- Vertical corner guards

**FWE Products are used by major companies world-wide. We can modify, design, or custom build equipment to fit your special requirements.**
