SUPER ERECTA SHELF® WIRE SHELVING ACCESSORIES

12" Cantilever Shelves: For convenient, lightweight storage in the space above a shelving unit, order back posts that will extend above the unit and add one or more of these 12"-wide cantilever shelves. The taper of the two corner openings is inverted so that the truss is above, rather than below, the shelf surface and forms a retaining edge. Same easy assembly and adjustability as other Super Erecta shelf shelves. These shelves can also be wall mounted using PDF posts and brackets.

SUPER ERECTA SHELF®
WIRE SHELVING ACCESSORIES

"S" Hooks leave corners open and fully accessible.

"S" Hook: Used to "add on" shelving units with only two posts required. Hook goes over the edge of the post-supported shelf and under the edge of the add-on shelf. Can be used to join units end-to-end, back-to-back or at right angles. Two "S" hooks required for each connection.

Cat. No. 9995Z

Post Clamp: For maximum strength in joining shelving units together, the post clamp is recommended. Each unit is supported by four posts and buttressed by the adjacent unit.

Cat. No. 9994Z

Foot Plate: Replaces the leveling bolt. Used when units are to be bolted to the floor or, without bolts, when a broader foot is desired.

Cat. No. 9993Z

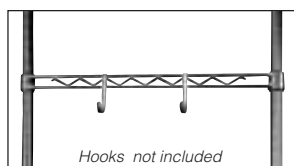

Hole Plug: Used to fill shelf-corner openings where posts have been eliminated by use of "S" hooks.

Cat. No. 9997C

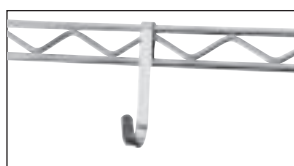

Glides: Fit over leveling bolt to protect tile floors.

Cat. No. 9991P

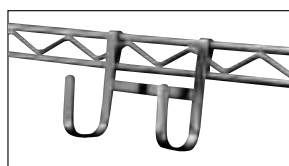

Hooks not included

Hanger Rails: Fit on posts to run width or length of unit. Accept same accessories as mounting rail kit. Chrome.
